SUMMARY

Frontend Developer with hands-on experience building responsive web applications using Angular, React, and Next.js. Strong foundation in JavaScript (ES6+), TypeScript, HTML5, and CSS3, with practical experience in REST APIs, JWT authentication, RxJS, Git/GitHub, SCSS, Tailwind CSS, and Bootstrap. Computer Science graduate focused on clean, maintainable code, usability, accessibility, and responsive UI development.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks	Angular, React, Next.js, Redux
Styling	SCSS/Sass, Tailwind CSS, Bootstrap
Tools	Git, GitHub, npm
Practices	Responsive Design, Accessibility, SEO Basics, OOP, Design Patterns, Agile

EXPERIENCE

Freelance Frontend Developer

2025 · Intermittent engagements

Self-Employed · Remote

- Delivered UI features and reusable components for internal projects across small businesses and teams.
- Built and refined pages and components in React/Next.js and Angular using TypeScript, SCSS, and Tailwind CSS.
- Integrated REST APIs with loading states, error handling, and basic caching strategies.
- Applied semantic HTML, keyboard navigation, ARIA, and responsive design practices.
- Collaborated through Git/GitHub, managed tasks from briefs/tickets, provided estimates, and documented handoffs.

Frontend Intern

Jul 2023 – Sep 2023

Banque Misr — Digital Factory · Cairo

- Contributed to frontend features in Angular, building reusable and responsive components with HTML, SCSS, and Tailwind CSS.
- Collaborated through Git/GitHub using branch-based workflows and code reviews.
- Worked within an Agile environment and followed component-structure and styling-consistency best practices.

PROJECTS

E-Commerce Platform — Angular · [Live Demo](#)

- Built a responsive e-commerce application covering product browsing, cart management, authentication, and checkout workflows.
- Implemented JWT authentication, route guards, REST API integration, and state management with RxJS and Angular services.
- Improved performance through lazy loading, image optimization, caching, and local-storage persistence.

Currency Exchange Dashboard — Angular · [GitHub](#)

- Developed a responsive currency exchange application with real-time conversion, comparison, and favorite-currency portfolio tracking.
- Built interactive dashboards using Angular, TypeScript, Sass, and Tailwind CSS for desktop and mobile.
- Implemented live exchange-rate updates and personalized favorites management.

EDUCATION

B.Sc. in Computer Science — Thebes Higher Institute of Management & Information Technology (Integrated Thebes Academy) · 2020 – 2024

LANGUAGES

Arabic · English
